

Pistol (KAVEH 7 , 9 & KAVEH REVOLVER)

DESCRIPTION

The Kaveh's pistols caliber 9 mm was developed through a rigorous "voice of customer" process in accordance with military standards. The Kaveh's pistols have been put through extensive testing and evaluation at the professional end-user level. The result is pistol that delivers superior performance in durability and reliability, ergonomics, trigger and modularity. The new semi-automatic pistol makes "Kaveh" one of the few manufactures to offer polymer and metallic framed handguns in hammer and striker fire operating system. We have updated our visual identify and tag line to better reflect our commitment to product quality innovation, craftsmanship and value.
