

## DESCRIPTION

Designing & manufacturing submarine cables

Specifications of manufactured cables:

1. Water tight up to 40 bar pressure
2. Resisting against oil, acid & salt water.
3. High flexibility up to -40 centigrade.
4. Operating temperature range -40 to 90 centigrade.
5. Test & manufacture standard; ISIRI1926-4, MIL 60394.

Localizing under surface waterproof cables with pressure resisting up to 40 Bars.

## SPECIFICATIONS

### Submarine Cables

Conductor	Tinned Copper, Class 5
Separator	Water Blocking Yard
Insulation	EPDM
Separator	Water Blocking Yard
Shield	tinned Copper Wire Braid
Outer Sheath	CPE
Production and test Standards	MIL 60394, ISIRI 1926-4
